

RIALTEX

SINCE
1988

Rialtex Profile

Rialtex are buying agents in Portugal, working since 1988, and have several departments that are evidence of the extended range of our activity, going from design area to sourcing, product management, quality control and delivery.

We control the full cycle of production, meaning we deal directly with all intervenients, i.e. spinners, weavers, knitters, dyers, printers, laundry, accessories suppliers, etc, providing to our clients the best quality at the most competitive price.

We have a very dynamic team, which is always in continuous formation in order to assure the best quality/price combination and to be updated with all new ideas that might be of interest to our clients.

We pride ourselves to be an ethical and social responsible company by acting in accordance with the labour and environment standards, ensuring full respect for national legislation and EU recommendation both in the production process and in relation to our partners. Rialtex are directly responsible for ensuring a sustainable production and supply chain. We see sustainability as a constant search for innovation and know that every step we take to diminish the environmental impact will reduce our carbon footprint and create a better environment and a fairer society.

Our partners are all audited and certified and use the most innovative techniques for making, dyeing, printing, washing and finishing, so that we can supply final products with added value.

Having an Agent in Portugal is guaranteeing of a better control of full cycle of production, better on time information, assuring that all requirements are met, and also with the possibility to do shopping exercise through several suppliers to be able to be offered the best quality/price binomial.

We and our partners are and have been supplying the following brands:

Inditex: Zara
and Maximo Dutti
Hush
Celtic
Adoca

AMI
Fusalp
Vaurnet
Represent

Faith Connection
Pyua
Satisfy
Etc.

As you can check, we have the flexibility and capacity to work with low and high quantities, different price levels, and using all techniques, such as combining/mixing different qualities apply special finishings on fibres/yarns or fabrics, do garment dye, yarn dye or fabric dye, use all types of printing (sublimation, digital or conventional) and using any kind of accessories.

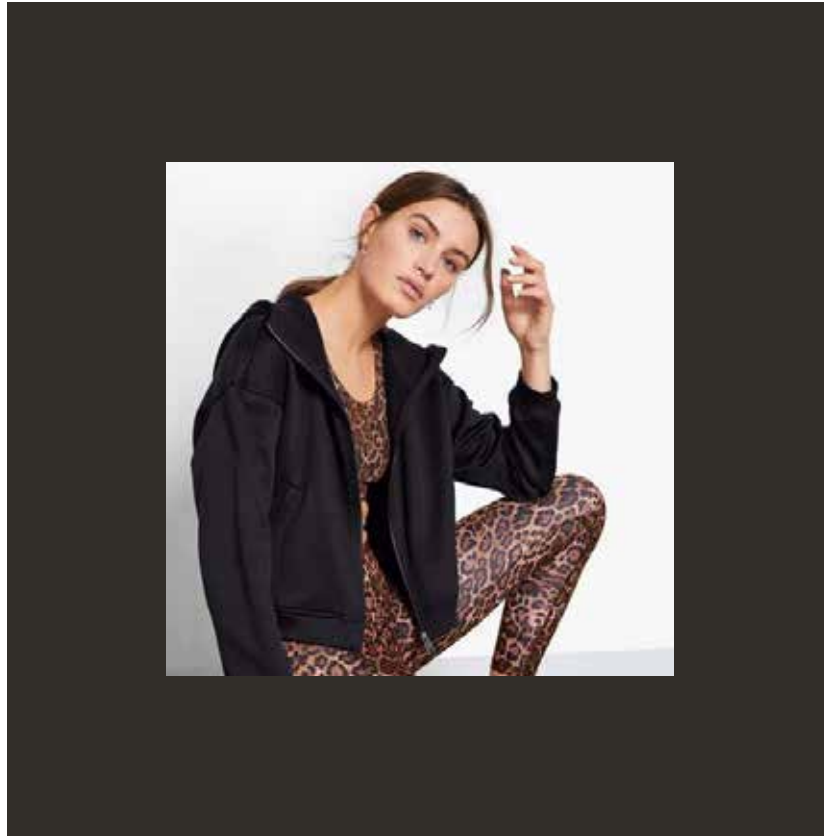

We supply Wovenwear, Jerseywear, technicalwear, Seamless, Swimwear and knitwear, and on all we can supply all type of fibres, knits and qualities.

Jerseywear

On jerseywear...

we can do all types of jersey, double jersey, fleece, polar fleece, interlock, pique, jacquards in all structures, self start rib qualities, bonded fabrics, etc, and using all types of fibres, natural, organic, recycled, upcycled, degradable, syntethic, 2 ply, etc.

Our making minimuns are 250 pcs per style and colour, but will always need to accomplish special yarns minimuns or dyeing minimuns. We offer all type of seams: twin needle, overlock, flatlock, bonded and ultrasonic seams.

Knitwear

Our partner has 32 flat Knitting Machines, Stoll and Shima from GG 3 to GG 16. On these machines we are capable of making all kinds of knits in all compositions, cotton, wool, cashmere, viscose, linen, acrylic, silk etc, or any kind of blended yarns/qualities.

We can also make all kinds of finishings, such as garment dyeing, dip dye, dusty dye, etc and can also mix knitwear with woven or Jersey applications.

We are capable of making any type of stitches and also Jacquards and Intarsia.

Our minimums are normally 150 pieces per style.

Wovenwear

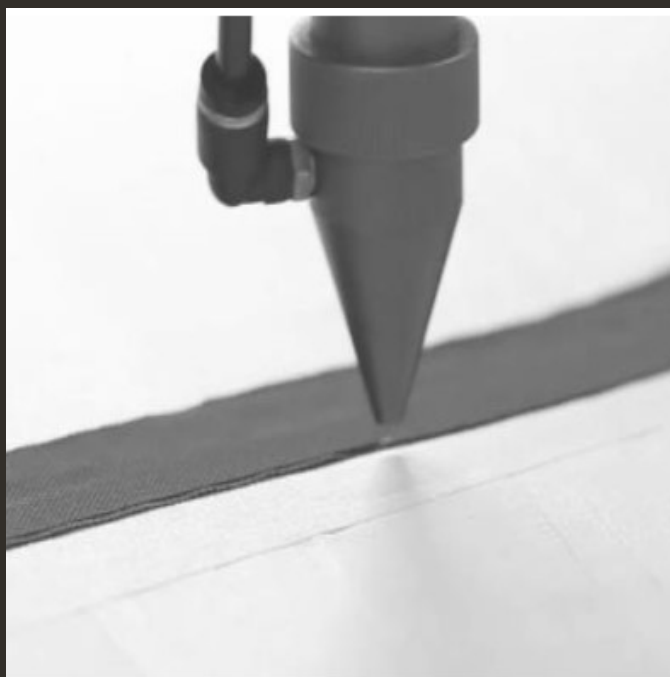

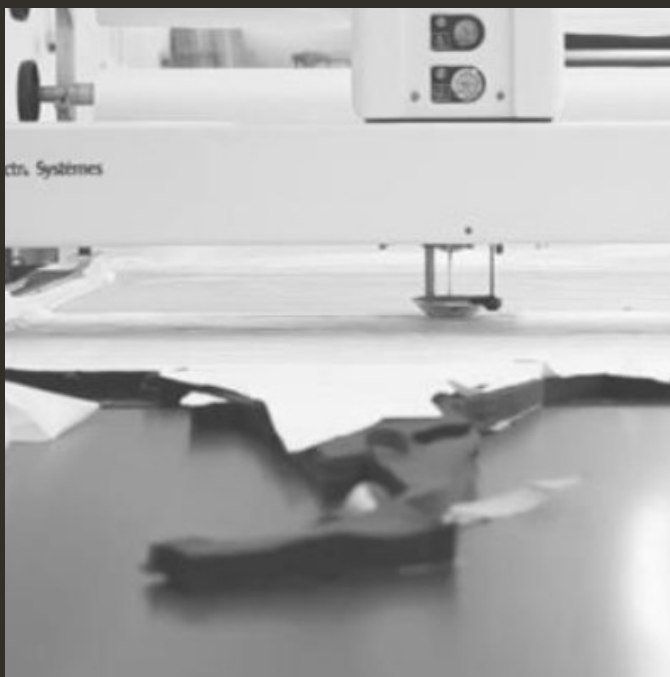

On Wovenwear, we can make any shape, trousers, blazers, suits, shirts, skirts, shorts, parkas, blouses etc in any quality. Usual making minimuns are 300 pcs per style/colour, but these can alter depending on selected woven qualities, style's fabric consumption and required minimuns.

Woven Technicalwear

On woven Technicalwear we offer Jackets, Bombers, Windbreakers, 3 Layers suit, Pants, Sportswear and others. We produce all types of styles using the most innovative techniques, such as welded sealed seams, bonded seams, Framis Technology, laser cutting and engraving details, ultrasonic seams and flatlock.

Activewear – Seamless

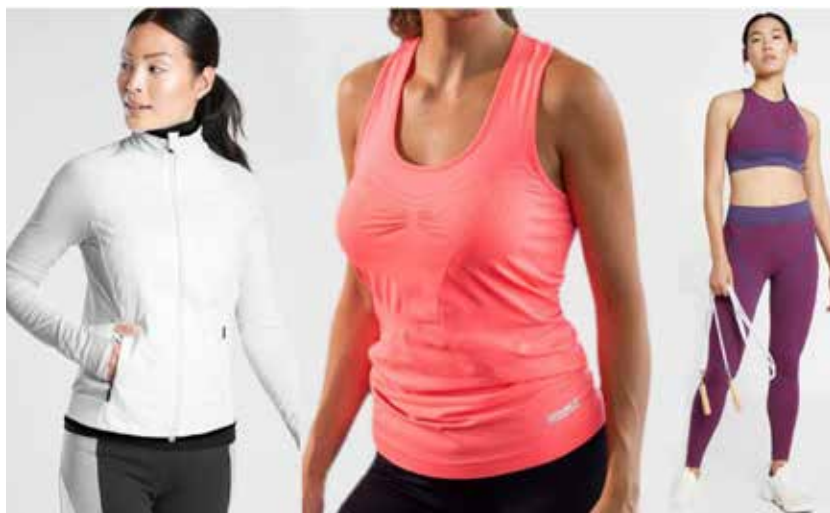

We promote fashion seamless styles offering a wide range of different styles for sports, fashion and workwear, such as leggings, bras, hoodies, jackets, compression calfs, arm warmers, snoods, balaclavas, ear warmers, tops, etc.

Our seamless partner is specialized in Technical fibres, natural and artificial fibres. It is certified for organic cotton and recycled fibres production and is known to work with active merino

blends (with coolmax, polypropylene, polyamida, etc), organic cotton, sustentable fibres such as tencel and modal from Lenzing, etc.

We have 40 Santoni knitting machines, from 12 to 21 inches of diameter (Top2, TR, EVO4J and DJ Looms). Having all Santoni machine models, we are capable of offering all types of colour combinations, structures, jacquards, holes, meshes, compressions, etc.

Swimwear

Our partner is one of the oldest and more experienced producer of swimwear in Portugal. On swimwear we use mainly Italian kettan jersey fabrics from Carvico, Eurojersey, Miti, Fulgar, etc.

All qualities can be sustainable or recycled and we offer the most advanced printing quality, either digital or sublimation.
